

April 4, 2023

PRESS RELEASE

FLUSHING OF WATER MAINS

The Whitinsville Water Company (WWC) will commence flushing of water mains and hydrants the week of April 10, 2023. Flushing will take place weeks of April 10 to May 15, 2023. Flushing will start in the western portion of Northbridge and Sutton and continue to move eastward through Town. Some flushing will be done during the day, but most will be done during the night hours to minimize any inconvenience to customers. Both the Whitinsville and Northbridge systems will be flushed.

The mains and hydrants are flushed every year to clean the water mains and maintain water quality as well as to ensure that the hydrants are working properly. During the flushing, you may notice discolored water or air in your water. The degree of discoloration and amount of air may vary by location. This should dissipate shortly after the flushing.

If discoloration is noticed, it is recommended to refrain from laundry (especially white clothes) until the water clears.

Thank you for your cooperation as we perform the necessary flushing program. We will use multiple media outlets (internet, TV, paper, R911) to provide notice. If you do have any questions, please contact our office at 508-234 -7358.
